- Used to work under pressure
- Programming and scripting
- Great communication in English and Spanish
- Proactive and results-driven, with a leadership style focused on leading by example and motivating others through action and dedication
- Skilled at working collaboratively in team environments, mentoring colleagues, fostering strong professional relationships, and maintaining a positive and supportive workplace atmosphere

Other data

- Argentinian
- Date of birth: 26/07/1993

- Communicate fluently in English every day, both speaking and writing, to collaborate effectively with colleagues, ensuring clear communication and coordination in an international environment.
- Creation and maintenance of detailed documentation using Confluence and Google Workspace, enabling clear communication and knowledge sharing.
- Manage and administrate Jira for project tracking, ensuring streamlined workflows and task management.
- Offer remote technical support to users and troubleshoot gaming systems via AnyDesk, ensuring smooth operation and resolving technical issues efficiently.
- Perform initial setup of laptops for new hires and leadership positions, including hardware configuration, software installation, and user account setup to ensure readiness from day one.

Present
2020

Self employed

Sound engineer

I have my own home studio, built by myself, where I record, produce and master songs and records.

2023
2019

Visuki

Videogame Soundtrack Composer and Audio Engineer

Composed, performed, and mixed/mastered original soundtracks (OSTs) for multiple videogames produced by the company.

2022
2021

Free Jam Club

Sound engineer

2021
2021

Picadilly Theater

Sound engineer

I replaced the regular sound engineer of this theater because he was touring with a local artist. I worked for every play, show or band that required a sound engineer.
